Estimated price at this time is \$695.00 per engine, plus shipping of \$9.00 by UPS in the continental United States. To proceed with this project we need firm orders for 65 engines with a 50% deposit. Any deposit by checks or credit card numbers given at this time will be deposited or processed when the plans are OK'd by us and the go ahead is given to the manufacturer. Final payment will be due when shipping of engines is announced. You will be notified when your check is deposited or your credit card charged.
